Only the Financial Proposal of the technically top-ranked Consultant is opened by the opening committee. All other Financial Proposals shall be returned unopened after the Contract negotiations are successfully concluded and the Contract is signed with the successful Consultant.

When the selection is based on the SSS method and if the invited Consultant meets the minimum technical score required passing, the financial proposal shall be opened and the Consultant invited to negotiate the contract.

23.3 Financial Proposals for QCBS, FBS, LCS

Following the ranking of the Technical Proposals, and after internal approvals, the Procuring Entity shall simultaneously notify in writing those Consultants whose Proposals were considered responsive to the RFP and TOR, and that have achieved the minimum qualifying technical score, advising them the following: (i) their Proposal was responsive to the RFP and TOR and met the minimum qualifying technical score; (ii) provide information relating to the Consultant's overall technical score, as well as scores obtained for each criterion and sub-criterion;(iii) their Financial Proposal will be opened at the public opening of Financial Proposals; and (iv) notify them of the date, time and location of the public opening and invite them for the opening of the Financial Proposals.

In case of discrepancy between the Technical and Financial Proposals in indicating quantities of input, the Technical Proposal prevails and the Procuring Entity's evaluation committee shall correct the quantification indicated in the Financial Proposal so as to make it consistent with that indicated in the Technical Proposal, apply the relevant unit price included in the Financial Proposal to the corrected quantity, and correct the total Proposal

cost.

24.3 Lump-Sum Contracts - If a Lump-Sum contract form is included in the RFP, the Consultant is deemed to have included all prices in the Financial Proposal, so neither arithmetical correction nor price adjustments shall be made. 28. Abnormally High Prices

28.1 An abnormally high price is one where the proposal price, in combination with other constituent elements of the proposal, appears unreasonably too high to the extent that the Procuring Entity is concerned that it (the Procuring Entity) may not be getting value for money or it may be paying too high a price for the contract compared with market prices or that genuine competition between Consultants is compromised.

28.2 In case of an abnormally high tender price, the Procuring Entity shall make a survey of the market prices, check if the estimated cost of the contract is correct, and review the RFP to check if the specifications, TOR, scope of work and conditions of contract are contributory to the abnormally high proposals. The Procuring Entity may also seek written clarification from the Consultants on the reason or the high proposal price. The Procuring Entity shall proceed as follows:

- i) If the proposal price is abnormally high based on wrong estimated cost of the contract, the Procuring Entity may accept or not accept the proposal depending on the Procuring Entity's budget considerations.
- ii) If specifications, TOR, scope of work and/or conditions of contract are contributory to the abnormally high proposal prices, the Procuring Entity shall reject all proposals and may re-invite for proposals for the contract based on revised estimates, specifications, TOR, scope of work and conditions of contract.

28.3 If the Procuring Entity determines that the Proposal Price is abnormally too high because genuine competition between Consultants is compromised (often due to collusion, corruption or other manipulations), the Procuring Entity shall reject all Proposals and shall institute or cause competent Government Agencies to institute an investigation on the cause of the compromise, before re-inviting for proposals.

3. APPENDIX TO FORM OF PROPOSAL ON FRAUD AND CORRUPTION CLAUSE (for information)

(Appendix shall not be modified)

Purpose

the government of Kenya's Anti-Corruption and Economic Crime laws and their sanction's policies and procedures, Public Procurement and Asset Disposal Act (*no. 33 of 2015*) and its Regulation, and any other Kenya's Acts or Regulations related to Fraud and Corruption, and similar offences, shall apply with respect to Public Procurement Processes and Contracts that are governed by the laws of Kenya.

The Government of Kenya requires that all parties including Procuring Entities, Tenderers, (applicants/proposers), Consultants, Contractors and Suppliers; any Sub-contractors, Sub-consultants, Service providers or Suppliers; any Agents (whether declared or not); and any of their Personnel, involved and engaged in procurement under Kenya's Laws and Regulation, observe the highest standard of ethics during the procurement process, selection and contract execution of all contracts, and refrain from Fraud and Corruption and fully comply with Kenya's laws and Regulations as per paragraphs 1.1 above.

- (6) An employee, agent or member described in subsection (1) who refrains from doing anything prohibited under that subsection, but for that subsection, would have been within his or her duties shall disclose the conflict of interest to the procuring entity;
- (7) If a person contravenes sub section (1) with respect to a conflict of interest described in subsection (5)(a) and the contract is awarded to the person or his relative or to another person in whom one of them had a direct or indirect pecuniary interest, the contract shall be terminated and all costs incurred by the public entity shall be made good by the awarding officer.
- (8) Incompliance with Kenya's laws, regulations and policies mentioned above, the Procuring Entity:

 - iv) “coercive practice” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;
 - v) “obstructive practice” is:

 - ii) Acts intended to materially impede the exercise of the PPRA's or the appointed authority's inspection and audit rights provided for under paragraph 2.3e. below.
- b) Defines more specifically, in accordance with the above procurement Act provisions set forth for fraudulent and collusive practices as follows:
- "fraudulent practice" includes a misrepresentation of fact in order to influence a procurement or disposal process or the exercise of a contract to the detriment of the procuring entity or the tenderer or the contractor, and includes collusive practices amongst tenderers prior to or after tender submission designed to establish tender prices at artificial non-competitive levels and to deprive the procuring entity of the benefits of free and open competition.
- c) Rejects a proposal or award¹ of a contract if PPRA determines that the firm or individual recommended for award, any of its personnel, or its agents, or its sub-consultants, sub-contractors, service providers, suppliers and/ or their employees, has, directly or indirectly, engaged in corrupt, fraudulent, collusive, coercive, or obstructive practices in competing for the contract in question;

The Procuring Entity is charged with the custody of government funds and is expected to exercise prudence in the expenditure of these funds.

2. Rate details are discussed below:

- (i) Salary is the gross regular cash salary or fee paid to the individual in the firm's home office. It shall not contain any premium for work away from headquarters or bonus, except where these are included bylaw or government regulations.
- (ii) Bonuses are normally paid out of profits. To avoid double counting, any bonuses shall not normally be included in the "Salary" and should be shown separately. Where the Consultant's accounting system is such that the percentages of social costs and overheads are based on total revenue, including bonuses, those percentages shall be adjusted downward accordingly. Where national policy requires that 13 months' pay be given for 12 months' work, the profit element need not be adjusted downward. Any discussions on bonuses shall be supported by audited documentation, which shall be treated as confidential.
- (iii) Social Charges are the costs of non-monetary benefits and may include, inter alia, social security (including pension, medical, and life insurance costs) and the cost of a paid sick and/or annual leave. In this regard, a paid leave during public holidays or an annual leave taken during an assignment if no Expert's replacement has been provided is not considered social charges.
- (iv) Cost of Leave The principles of calculating the cost of total days leave per annum as a percentage of basic salary is normally calculated as follows:

$$\text{Leave cost as percentage of salary} = \frac{\text{total days leave} \times 100}{[365 - w - \text{ph} - v - s]}$$

Where w = weekends, ph = public holidays, v = vacation, and s = sick leave.

Please note that leave can be considered as a social cost only if the Procuring Entity is not charged for the leave taken.

- (v) Overheads are the Consultant's business costs that are not directly related to the execution of the assignment and shall not be reimbursed as separate items under the Contract. Typical items are home office costs (non-billable time, time of senior Consultant's staff monitoring the project, rent of headquarters' office, support staff, research, staff training, marketing, etc.), the cost of Consultant's personnel not currently employed on revenue-earning projects, taxes on business activities, and business promotion costs. During negotiations, audited financial statements, certified as correct by an independent auditor and supporting the last three years' over heads, shall be available for discussion, together with detailed lists of items making up the overheads and the percentage by which each relates to basic salary. The Procuring Entity does not accept an add-on margin for social charges, overhead expenses, etc. for Experts who are not permanent employees of the Consultant. In such case, the Consultant shall be entitled only to administrative costs and a fee on the monthly payments charged for sub-contracted Experts.
- (vi) Profit is normally based on the sum of the Salary, Social costs, and Overheads. If any bonuses paid on a regular basis are listed, a corresponding reduction shall be made in the profit amount. Profit shall not be allowed on travel or any other reimbursable expenses.
- (vii) Away from Home Office Allowance or Premium or Subsistence Allowances Some Consultants pay allowances to Experts working away from headquarters or outside of the home office. Such allowances are calculated as a percentage of salary (or a fee) and shall not draw over heads or profit. Sometimes, by law, such allowances may draw social costs. In this case, the amount of this social cost shall still be shown under social costs, with the net allowance shown separately.

FORM FIN-4 BREAKDOWN OF REIMBURSABLE

When used for Lump-Sum contract assignment, information to be provided in this Form shall only be used to demonstrate the basis for calculation of the Contract ceiling amount, to calculate applicable taxes at contract negotiations and, if needed, to establish payments to the Consultant for possible additional services requested by the Procuring Entity. This form shall not be used as a basis for payments under Lump-Sum contracts. This form shall be filled for Time-Based Contracts to form the basis of contract negotiations.

SECTION 5. TERMS OF REFERENCE

TERMS OF REFERENCES FOR CONSULTANCY FOR DEVELOPMENT OF PRODUCTIVITY

INDEX FOR THE TEACHING SERVICE

1. Introduction

1.1. Background of the organization

Kenya's National Planning Framework aims at directing resources in line with the National development agenda of the Government under the Vision 2030 and other public and international frameworks. The National Government expects all state agencies to systematically and strategically implement their mandates, resulting in more excellent service delivery to the republic's people. The Education Sector in Kenya is committed to providing quality education, training, science, and technology to all Kenyans in line with the national education sector strategic plan for the period 2018 – 2022. The policy recognizes the transforming nature of the education environment and calls for reimagining every aspect of education delivery.

The Ministry of education and its attendant state agencies working together with the teacher service commission is mandated to ensure that Kenya meets the broader goals of sustainable quality education for all. The Teacher Service Commission (TSC), as an independent constitutional body reporting directly to the President of the Republic, is responsible for recruitment, deployment, training, and performance appraisal of teachers.

Teachers constitute one of the most critical institutional inputs into a student's learning experience. There is an increased consensus that highly qualified and effective teachers are necessary to improve student performance, and there is growing interest in identifying individual teachers' impact on student achievement. Nevertheless, the prevailing paradigms through which teacher productivity is designed are relatively static and do not fully encompass these broader changes' significance or implications.

In the context of competency-based equitable learner-centered education, training, and research, and line with the labor market demands, putting the needs and interests of both learners and the teachers at the heart of reform would lead to the achievement of sustainable

quality education. Research reveals that how teachers instruct and these interactions with students is the cornerstone around which to build effective schools. However, it is increasingly evident that having the necessary qualifications and certifications does not necessarily predict “highly effective” teaching. Teacher effectiveness is often narrowly defined as the ability to produce gains in student achievement scores.

Measuring teacher productivity in this manner is not only controversial but is no longer sufficient. A comprehensive conceptualization of productivity in teaching needs to be done to develop a Teacher Productivity measurement system that incorporates both outcome quality and quantity.

Article 237 of the Kenyan Constitution and Teachers Service Commission (TSC) under Section 11 of the TSC Act stipulates the mandate and functions of the Teachers Service Commission (TSC) among others as to:

- a) review the standards of education and training of persons entering the teaching service;
- b) advise the national Government on matters relating to the teaching profession.
- c) formulate policies to achieve its mandate;
- d) ensure that teachers comply with the teaching standards prescribed by the Commission under TSC Act;
- e) manage the payroll of teachers in its employment;
- f) facilitate career progression and professional development for teachers in the teaching service, including the appointment of headteachers and principals;
- g) monitor the conduct and performance of teachers in the teaching service

1.2.Consultancy Background and Context

In line with its Mandate and Functions, TSC would like to procure a qualified consultant, individual, or company to prepare a teacher productivity index that will guide it in implementing its mandate. The consultant will carry out relevant activities to produce a productivity program and Teacher productivity measurement index. The scope of the assignment shall include:

- 1) Conduct a highly participative baseline study involving stakeholders and staff at all education levels to relevant parametric sector indicators for the teaching profession.
- 2) Establish a comprehensive work measurement system that defines and measures the teaching profession's competencies, detailed processes and compares current performance against standards. The standards used in such a system should consider the experience and detailed analysis of what teacher performance should be.
- 3) Develop and Implementation framework and a detailed post-auditing procedure to evaluate the program and to validate the assumptions.
- 4) Develop a multi-factor model for calculating the Productivity index for TSC teachers.
- 5) Design a secure database management System (DBMS) that archives the employees records for the identified productivity parameters.

1.3.-Project objectives and specific tasks

Overall Objective

The overall goal is ‘to develop a Teacher productivity measurement index that will guide the TSC in implementing its mandate.’

1.4. Specific Tasks

- 1) Review key documents about the assignment to determine baselines on relevant parametric sector indicators
- 2) Produce a project inception report outlining details of activities indicating delivery dates and a range of methodologies to be used in accomplishing the task.
- 3) Analyze and document the mission, objectives, and activities of the organization.
- 4) Conduct a robust stakeholder mapping on teacher performance in the CBC dispensation.
- 5) Determine in what ought to be measured.
- 6) Define the output measures. NB: The output measures used should be those who will indicate, with reasonable accuracy, the information which managers at various levels need to evaluate the progress being made toward achievement of the TSC mandate.

- 7) Identify measures of effectiveness and quality that provides a total Performance Measurement concept indicating all problem areas in developing a comprehensive understanding of Teacher productivity.
- 8) Determine the input measure to be used.
- 9) Establish a data collection system.
- 10) Constructing a PRODUCTIVITY INDEX with constituent components
- 11) Support the TSC in commissioning/ launching the Performance Measurement System publicly.

2. Expected Deliverables by the Consultant

The following deliverables will be expected from the consultant:

- **Inception Report:** An inception report, including a detailed work plan, is presented by the consultant. The information should also reflect all substantive and logistical issues that would have to be addressed to collect data and develop the productivity measurement index. The inception report is to be submitted within (One) week after contract signing.
- **A comprehensive teacher productivity measurement Index:** The consultant will submit a draft productivity measurement system and Index within (5) months after assignment commencement. Three hard copies and a soft copy version are to be submitted.
- **Final Teacher Productivity measurement framework and Index:** Within two (2) Months after receiving TSC and stakeholders' comments on the draft, the Consultants will submit a Teacher productivity Index. Three hard copies and a soft copy to be forwarded to TSC.

3. Final Report

The final report should be prepared on a word processor (preferably Word) and submitted in electronic format, along with three (3) printed copies for sharing with relevant stakeholders. The report will be no more than 60 pages, including an executive summary and excluding annexes. To be submitted also includes hard and electronic copies of materials, data collected

& analyzed, and any other related documents and a summary PowerPoint presentation highlighting its implementation's critical stages post-auditing procedure.

NB: The Works should be done within six months.

SECTION 6. CONDITIONS OF CONTRACT AND CONTRACT FORMS

Preface

1. This Section includes two types of standard contract forms for: A Lump-Sum Contract and a Time-Based Contract. Each type includes General Conditions of Contract (“GCC”) that shall not be modified, and Special Conditions of Contract (“SCC”). The SCC includes clauses specific to each contract to supplement, but not over- write or otherwise contradict, the General Conditions of Contract.
2. Lump-Sum Contract. This type of contract is used mainly for assignments in which the scope and the duration of the Services and the required output of the Consultant are clearly defined. Payments are linked to outputs (deliverables) such as draft or final reports, drawings, bill of quantities, bidding documents, or software programs. Lump-sum contracts are easier to administer because they operate on the principle of a fixed price for a fixed scope, and payments are due on clearly specified out puts and milestones. Never the less, quality control of the Consultant's outputs by the Procuring Entity s paramount.
3. The templates are designed for use in assignments with consulting firms and shall not be used for contracting of individual experts. In some consultancy assignments such as design and construction supervision, both Lump- Sum and Time-Based Contracts are used and signed with the Consultant. In that case, the Lump-Sum Contract would apply for the design part of the Services while the construction supervision part would be based on a Time- Based Contract. In such event, both types of contracts shall be signed at the same time.
